in nursing home care of patients. But it is my opinion, that section 6, on page 4, probably authorizes the department of institutions to receive private patients into public nursing homes. If this would be the case, the State of Nebraska would be entering directly into private business. On checking with the department of institutions, they say absolutely not. They will not, this is not their intent. In checking with the appropriations committee, they say definitely not. They will not appropriate money of any kind for the State entering in to the private business of nursing homes. On January, 1974 a bill shall be entering into the legislature, with the proper language to satisfy the federal needs and to be sure and prohibit the department of institutions from engaging in private business. I respectfully request that you withdraw my motion.

PRESIDENT: Are there objections to withdrawing the motion? Hearing none, so ordered. Clerk will procede with the reading of LB 536.

Is it within the power of the chair to order the television lights be turned on, so we can televise one of our members in the lobbyists section? Can't get the camera up there? All right, I guess that is what you call far ranging. This is the final bill today on final reading and, we really would, let's see, 583 is apparently still coming up, but attention please for final reading of LB 582. It has the emergency clause also.

CLERK: LB 582, (Read)
